

cents for themselves only. There was no opposition to the section on control of air contaminants from the motor vehicle.

The blunt fact is, that we could lose the battle against air pollution if we do not improve our present planned programs and laws. This is true because of Environmental Resources --- Air, Water, Land and Space are essentially fixed, while the opposing forces increase, some of them geometrically.

STATE BOARD ANNUAL MEETING IN LAS VEGAS

The Nevada State Board of Registration for Public Health Sanitarians announces that it will hold it's annual meeting in Las Vegas on June 14, 1969 commencing at 10 a.m.. The meeting will be held in the conference room at the Frontier Hotel.

An item of interest to all is the fact that no person inquiring as to the exam for R.P.H.S. actually has made application to take the exam. With no qualified pool of employable sanitarians, the Governmental agencies and Industry needing such personnel will be hard put in the coming year to fill positions. As a possible solution, the Board Secretary is sending letters of invitation to take such exams to many Schools of Public Health having graduating sanitarians.

1970 - NEVADA

Nevada and Las Vegas is the site of the

Annual Education Conference of the National Association of Sanitarians.

THE TYPICAL "HOMES" MIGRANTS LIVE IN-

- Are small, overcrowded, and of substandard construction
- Lack adequate facilities for food storage and preparation
- Lack adequate and safe water supply for drinking, dishwashing, bathing and laundry.
- Lack adequate sewage and waste disposal facilities
- Attract insects and rodents
- Have no recreation area or facilities

THE TYPICAL PLACES WHERE THEY WORK—

- Are exposed to heat, cold, wind, dust, chemicals and mechanical hazards
- Lack safe and accessible water for drinking or washing
- Lack adequate toilet facilities
